DriverFilesHub

Driver qualification, fleet compliance and trip management for trucking companies

In one sentence: DriverFilesHub lets a trucking company hire drivers online, keep every driver, truck and trailer document in one safe place, stay ready for a DOT audit at any time, and, as it grows, run its trips, driver app, pay and payroll from the same system.

Features at a glance · 13 October 2026 · Based on the client use cases (DOT Doc Hub), the gap report, the architecture set and the code at commit d1d4d8d

How to read the status labels

- ✓ Ready — Works today
- Upgrading — Works today, rebuilt in Phase 0
- Phase 0 — Foundation release
- Phase 1 — Quick wins
- Phase 2 — Trips and loads (web)
- Phase 3 — Driver app and tracking
- Phase 4 — Pay and QuickBooks
- PENDING — Waiting for the client

client requirements	work today	work in part	planned in Phases 0–4

1 Who uses DriverFilesHub

Platform team runs the service

Platform Owner
Accountable for the service. At least two.

Platform Administrator
Companies, plans, settings

Billing Manager
Subscriptions and payments

Support Agent
Helps companies (with approval)

Auditor
Read-only audit and billing

Upgrading Today a single "super-admin".

Each trucking company a customer

Owner ✓ Ready
Holds the account, pays, full control

Administrator Phase 0
Everything except billing

Dispatcher Phase 0
Trips, assignments, tracking

Office / Compliance Phase 0
Drivers, documents, fleet

Driver Phase 3
Mobile app: trips, inspections, fuel, events, time, messages

Companies can also **create their own roles** Phase 0. An owner-operator is an Owner who is also a driver.

Driver applicant

No login needed ✓ Ready
Applies from the company's own link, verified by an SMS code

> **Privacy:** the platform team can see a company's data **only** in a support session the company Owner approves.

2 Feature map

Company account
- Sign up and log in
- Company profile
- Staff and roles
- Subscription

Hiring
- Online application
- SMS verification
- Hire or reject
- DQ file

Compliance
- Driver dashboard
- Fleet dashboard
- 30-day warnings
- Daily reminders

Fleet
- Trucks and trailers
- Asset groups
- Maintenance schedules
- Service logs

Documents
- Standard and own folders
- Photo becomes PDF
- ZIP download

Trips
- Trips and loads
- Shippers
- Pre-trip checklist
- Events and fuel

Driver app
- Start driving!
- Live tracking
- Messages and push

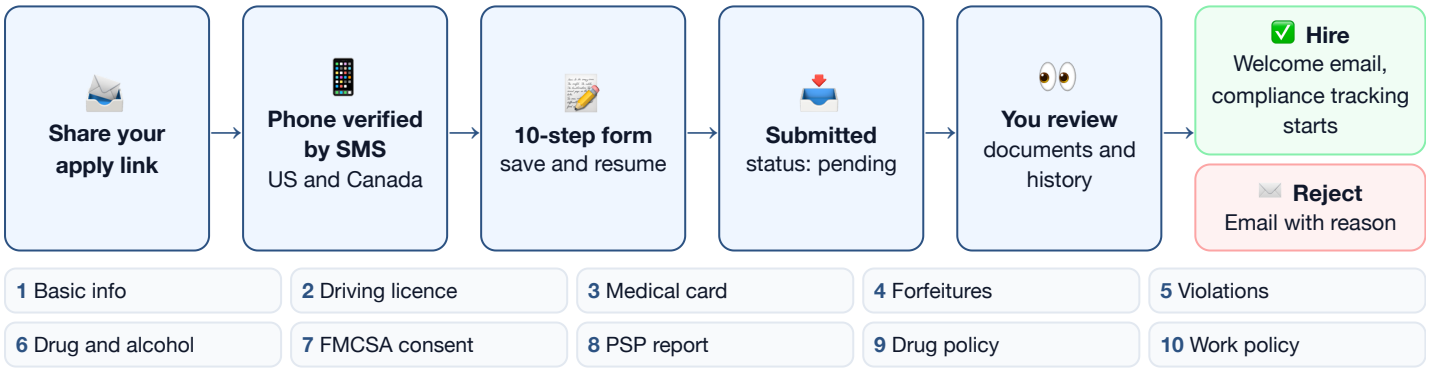

Money
- Driver pay and timesheets
- Daily profit and loss
- QuickBooks Online

3 Features in detail

🏢 3.1 Company account and team

Feature	What it means for you	Status
Sign up with email	Create your company account. Email verification is required.	✓ Ready
Company name at sign-up	Sign-up asks for your company name, not just your own name	Phase 0
Google or Facebook sign-in	One-click sign-up and log-in on the website	Phase 1
Sign in with Apple	Needed in the iPhone app if Google or Facebook sign-in is offered there	Phase 3
Log in	Secure login. Inactive users are logged out automatically.	✓ Ready
Company profile	Name, address, phone, logo. Adds DOT and MC numbers, time zone and billing email.	✓ Ready + Phase 0
Company policy PDFs	Your own drug and alcohol policy and work policy, shown to applicants. A platform default is used if you have none.	✓ Ready
Invite staff	Email invitation; the person sets a password and joins your company	Phase 0
Ready-made roles	Owner, Administrator, Dispatcher, Office / Compliance, Driver	Phase 0
Your own roles	Create, edit and delete roles and pick their permissions (depends on your plan)	Phase 0
Permissions for one person	Give one user an extra permission without a new role (screen in Phase 1)	Phase 0 Phase 1
Safe role rules	Nobody can give more rights than they hold, or change their own roles	Phase 0
Close account	Nothing is deleted. The company is deactivated and the data kept.	✓ Ready

📝 3.2 Driver hiring

1 Basic info	2 Driving licence	3 Medical card	4 Forfeitures	5 Violations
6 Drug and alcohol	7 FMCSA consent	8 PSP report	9 Drug policy	10 Work policy

Feature	What it means for you	Status
Your own apply link	Every company has its own web address for applications	✓ Ready
SMS phone check	One-time code by text message. US and Canadian numbers only.	✓ Ready
Save and resume	Stop and continue later, check status, or withdraw	✓ Ready
Hire or reject in one click	The applicant gets an email automatically	✓ Ready
Add a driver yourself	Staff enter a driver with the same step-by-step wizard	✓ Ready
Driver Qualification file	Licences, addresses, experience, accidents, violations, employers, signed consents	✓ Ready
Terminate a driver	Ends employment, switches off the login, keeps the DQ file for the legal period	Phase 0
Applications closed	If your plan doesn't include online applications, the link says so	Phase 0
Invite a driver to the app	The driver gets a login linked to their driver record	Phase 3

3.3 Compliance: always audit-ready

The driver or owner uploads the new document, and the status turns green again.

Feature	What it means for you	Status
Driver compliance dashboard	Green, yellow or red for every driver, 25 per page	✓ Ready
Fleet compliance dashboard	The same for every truck and trailer, paginated	✓ Ready
30-day early warning	A document is "expiring" 30 days before its expiry date	✓ Ready
Upload to all	One document (for example an insurance card) to every truck at once	✓ Ready
Choose your document types	Switch off document types that don't apply to your company	✓ Ready
Daily reminder email	One email per driver per day listing their problem documents	✓ Ready
One-click reminder	Remind a driver or vehicle owner from the dashboard	✓ Ready
Medical card and CDL expiry	Both now count in the compliance status (not tracked before)	Phase 0

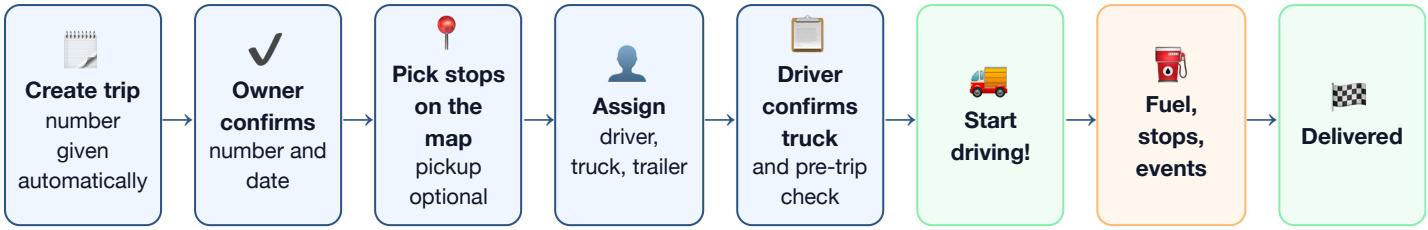

3.4 Fleet and maintenance

Feature	What it means	Status
Trucks and trailers	Add, edit, delete, restore. Type, year, make, model, VIN, unit no.	✓ Ready
No duplicates	VIN and unit number unique in your company	✓ Ready
Plate and photo	Plate number, state and picture	Phase 1
Asset groups	Pair a driver with a truck and trailer	✓ Ready
One group per truck	Only one active group per truck or trailer	Phase 0
Co-driver	For team driving	PENDING
Engine hours	Kept on the truck, raised by service logs	✓ Ready
Maintenance schedules	By date, mileage or engine hours. Completing one moves the next due date forward.	✓ Ready
Service logs	Repairs, categories, costs, receipts (PDF, images, Word)	✓ Ready
Move a truck to another company	By the platform team. History copied, both Owners told.	Phase 0

3.5 Documents and folders

Feature	What it means	Status
Standard folders	For each driver (DQ file), truck, trailer and trip	Phase 1
Your own folders	Create, rename, delete; folders inside folders (up to 5 levels)	Phase 1
Upload into a folder	Put any document in the folder you choose	Phase 1
Photo becomes PDF	Converted automatically; the original is kept	Phase 1
ZIP: driver or company	Everything for one driver, or the whole company	Phase 1
ZIP: trip	Everything for one trip	Phase 2
Safe downloads	Built in the background; you get a link that expires	Phase 1

3.6 Trips and loads Phase 2

Feature	What it means for you	Status
Create and edit trips	One load per trip	Phase 2
Automatic number and date	You confirm them before the trip goes out	Phase 2
Load details	Product, weight and unit; the pay you get for the load comes in Phase 4	Phase 2 Phase 4
Shippers	Add shipper details and save them for next time	Phase 2
Map picker	Start and drop-off from Google Maps. Skip the pickup when it is the same as the start.	Phase 2
Assign driver, truck, trailer	Filled in from the driver's asset group	Phase 2
Driver confirms equipment	The driver checks the truck and trailer are the right ones (in the app: Phase 3)	Phase 2
Pre-trip checklist	One screen with a progress bar. A pre-trip checklist, not a DVIR.	Phase 2
Add Stop	Record an unplanned stop and the reason	Phase 2
Police stop	Ticket yes or no. Yes: upload the ticket. No: say why you were stopped.	Phase 2
Weigh station	Weight OK yes or no. No: upload the documents.	Phase 2
Accident	Licence, insurance and photos of both vehicles. Feeds the accident register report.	Phase 2
Breakdown	Record a breakdown on the trip	Phase 2
Add Fuel Stop	Where, gallons, price, receipt, then a "Done" screen. See later where each stop was.	Phase 2
Dashboard counts	Loads on the road and loads waiting for pickup	Phase 2

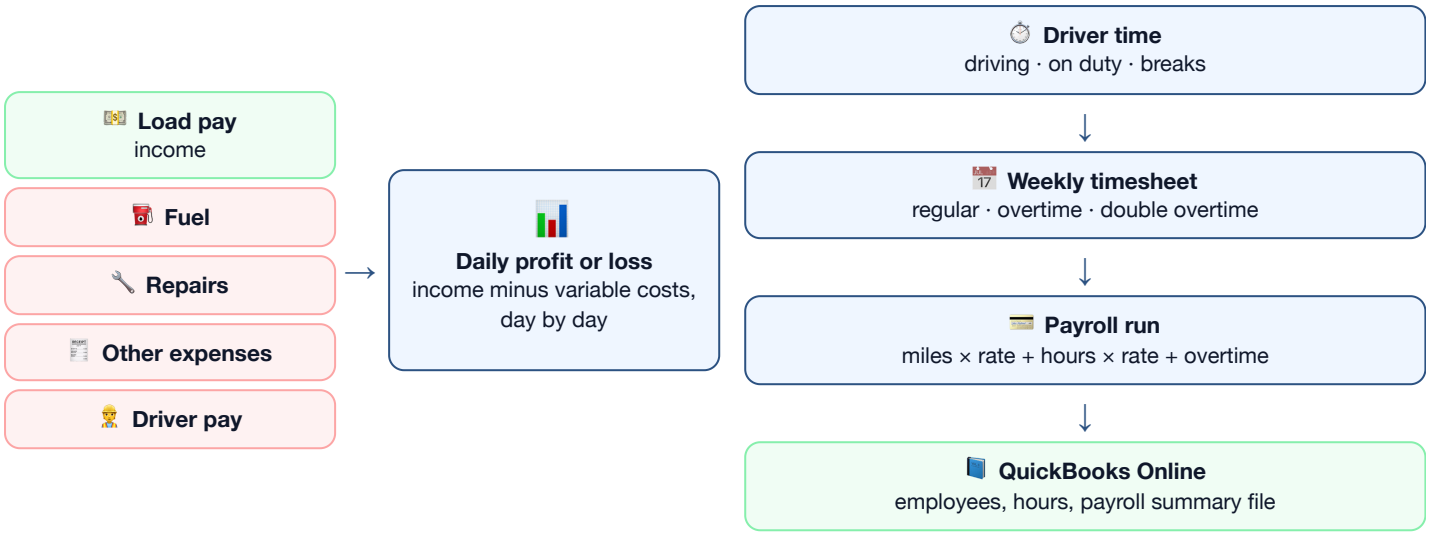

3.7 Driver mobile app Phase 3

Feature	What it means for the driver
Driver login	Own account; sees only their own trips
Current location	Start the trip from where the driver is
"Start driving!"	Shows "Trip Started" and opens the trip folder
Continue a trip	Leaving the app brings them back to the trip in progress
Miles and distance	Miles driven so far and distance left
Camera uploads	Tickets, receipts and accident photos from the phone
Messages	Office–driver chat with push notifications

3.8 Live tracking Phase 3

Feature	What it means for you
Live truck location	Every truck on a trip, on a map
Live trailer location	Taken from the truck pulling it on the active trip; no trailer GPS device needed
Driver privacy	Drivers are told about tracking. Location history is kept for a limited time.

3.9 Pay, time and profit Phase 4

Feature	What it means for you	Status
Pay per load	Enter what you are paid for each load	Phase 4
Pay per mile and per hour	Rates per driver with start dates, so past pay never changes	Phase 4
How the two rates combine	Miles are paid per mile; waiting and loading time is paid per hour. A driver with only an hourly rate is paid hourly for all work.	Phase 4
Timesheets	Hours, overtime and double overtime	Phase 4
Overtime rules you control	Default: overtime after 8 h a day, double after 12 h. Optional weekly limit. Mark exempt drivers.	Phase 4
Expenses	Tolls, lumper, scale, parking, repairs, other (categories to confirm)	Phase 4 PENDING
Daily profit or loss	Load pay minus fuel, repairs, expenses and driver pay	Phase 4
Year-end report	Each driver's trips, load type, trip numbers, trucks, trailers, hours and miles	Phase 4
QuickBooks Online	Drivers as employees, approved hours as time records, and a payroll summary file	Phase 4
Time-off requests	Drivers and staff ask; the Owner or an Administrator approves	Phase 4

Timesheets in DriverFilesHub are **not** hours-of-service (ELD) records.

4 Plans and subscription

Free trial	Starter	Company	Enterprise
14 days	**$29/mo**	**$99/mo**	**$149/mo**
all features	$290 / year	$990 / year	$1,490 / year

Default prices in the system today. The Platform Owner can change prices and what each plan includes.

Subscription feature	What it means for you	Status
Free trial	One per company and per verified email	✓ Ready
Pay by card	Secure Stripe checkout, monthly or yearly	✓ Ready
Billing portal, cancel, resume	Manage your card and invoices yourself	✓ Ready
Owned by the company	All your users and drivers share one subscription (today it belongs to one user)	Upgrading
Plan limits	Drivers, trucks, trailers, office users and storage per plan. Going over deletes nothing; you just can't add more until you upgrade.	Phase 0
Upgrade and downgrade	Upgrades apply at once; downgrades at the end of the billing period	Phase 0
Grace and read-only	7 days of grace, then read-only. You can still view and export your DQ files for an audit.	Phase 0
Expiry reminders	Email (and SMS) 7, 3 and 1 days before your plan ends	✓ Ready

What counts toward the limits: active hired drivers only (not applicants), office users only (not driver logins), and trucks and trailers that aren't deleted.

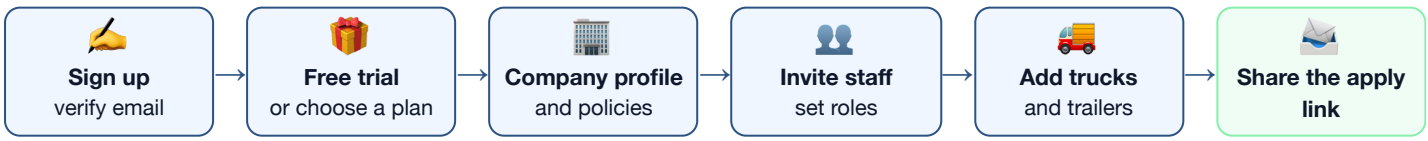

5 Security and privacy

Protection	What it means for you	Status
Your data is yours	Every company's data is kept apart. Another company can't open your records, even by guessing a link.	Upgrading
Private files	Documents are never public. Every download is checked.	✓ Ready
SSN encrypted	Social Security numbers are stored encrypted	✓ Ready
Email verification	Required before using the system	✓ Ready
SMS limits	Limits on code requests stop abuse and cost	✓ Ready
Platform staff can't look in	Only in a support session that your Owner **and** a second Platform Owner approve. Time-limited, shown on screen, you can stop it any time, every action logged.	Phase 0
Activity log	Logins, role changes, exports, deletions and support-session actions are recorded	Phase 0
Two-step login for platform staff	Recommended for every platform account	Phase 0
Nothing lost by accident	Companies and users are deactivated, never wiped. Data is removed only after the legal keeping period.	✓ Ready

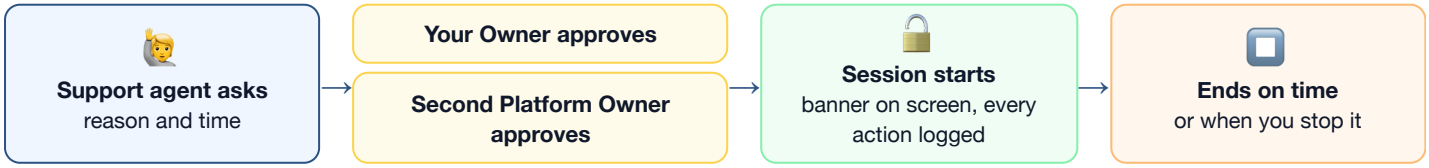

There is **no** two-factor login for company users today. The older feature sheet said there was; that was wrong.

6 How it works: the main journeys

6.1 A company gets started

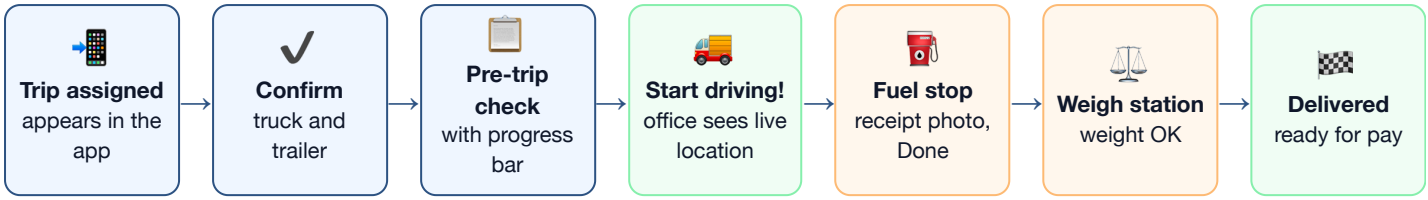

6.2 When the platform team needs to help

If either side says no, there is no access. There is no way around the Owner's approval.

6.3 A driver's day Phase 3

7 Delivery plan

Phase 0 · Foundation

- Staff accounts and company roles
- Company billing and plan limits
- Read-only after non-payment
- Support sessions, activity log
- Medical card and CDL expiry

Phase 1 · Quick wins

- Google and Facebook login
- Folders, photo to PDF
- ZIP per driver and company
- Licence plates and photos
- Per-user permissions screen

Phase 2 · Trips and loads

- Trips, shippers, map
- Assignment
- Pre-trip checklist
- Events and fuel stops
- Dashboard counts, trip ZIP

Phase 3 · Driver app

- Driver login and app
- Start driving!
- Live tracking, miles
- Messages and push

Phase 4 · Money

- Load pay, pay rates
- Timesheets, overtime
- Daily profit and loss
- Year-end report
- QuickBooks, time off

Each phase builds on the one before. Phase 4 needs trips (Phase 2) and driver time from the app (Phase 3).

8 Still to confirm with the client

Item	Today's default	Status
Co-driver for team driving	A co-driver field is kept on asset groups until you decide	PENDING
An empty bullet in the use-case list	After "miles traveled and the distance to the destination". Nothing is added until you tell us what was meant.	PENDING
How long to keep records	Legal minimums proposed for DQ files, maintenance, accidents, payroll, locations and the activity log. Your counsel should confirm.	PENDING
Expense categories	Toll, lumper, scale, parking, repair, other	PENDING
Scheduler every minute in production	Must be confirmed before go-live; reminders depend on it	PENDING
Driver overtime exemption	The company decides which drivers are exempt; the software only applies it	PENDING
